

MAKE YOUR AIRPORT PART OF THE ADVENTURE

CAROUSEL DISPLAYS

Baggage claim is one of the highest-dwell areas in the terminal, making it a prime place to showcase what makes your destination worth exploring. Our carousel displays transform baggage claim into a strong first (and last) impression by featuring local landmarks and tourism partners—zoos, museums, heritage sites, neighbourhood icons, and regional history—presented in a bold, cohesive visual story. These displays can improve wayfinding, encourage photos and social sharing, and reinforce destination branding.

ART DISPLAYS AND MEMORIALS

Airports are often a visitor's first connection to a community, which makes them an ideal home for public art and heritage storytelling. We create art displays and memorial sculptures that honour local history, culture, and people in a way that feels meaningful, respectful, and visually compelling. Whether it's a tribute to regional industry, Indigenous heritage, local wildlife, community milestones, or commemorative memorials, each piece is developed with stakeholder input and designed for the operational realities of an airport

LANDMARK SCULPTURES

Landmark sculptures turn key airport moments into memorable “welcome to our region” experiences, from curbside entries and plazas to concourses and gate hubs. Studio Y Creations designs and fabricates iconic, photo-ready pieces that strengthen sense of place and support intuitive wayfinding (“meet me at the [landmark]”). Built for high-traffic public environments, these installations are engineered for durability, safe interaction, and long-term performance, helping airports create signature visual identity while

FAMILY-FRIENDLY PLAY AREAS

We create family-friendly play areas that make wait times easier for everyone. Each space is designed with airport realities in mind: clear sightlines for caregivers, smart placement to avoid bottlenecks, and materials/finishes that stand up to constant use and frequent cleaning. Options can range from interactive wall features and themed seating to playful 3D elements and calming corners, scaled to fit anything from a small gate nook to a flagship family zone.

BUILDING IMAGINATION

VISION – DESIGN – ENGINEERING – FABRICATION – INSTALLATION

Studio Y Creations is a world-class design and fabrication studio. Our artists and engineers create custom-themed environments that make visits to your facility enjoyable for travelers young and old.

With over 3 decades of experience building interior and exterior large-scale displays, props, signage, and anything else you can imagine, we have the skills and experience to get your project done.

You can find our work in retail locations, zoos & aquariums, museums, amusement parks, and healthcare facilities in North America and around the world.
